Caca*

happy birthday dear Caaaaa my lovelyyy!!!!

may this year's birthday be a year filled with so many beautiful things, exciting opportunities, and moments that remind you how loved you are 🥺

if you're asking me about apa momen kebaikan kamu, jujur my dory brain ga inget when and how... tapi for sure i pernah literally impressed by you hehe. kayanya it's when you did something for someone is when i realized that YOU as a person km bener bener tuluuussss and your willingness to do kindness is what impressed me 🥺🥺 selama aku kenal sama kamu, aku tau kamu orangnya ga fake sama sekali!! never a single thought about that. like honestly ga semua orang bisa punya that kind and genuine heart like yours!!! ❤️

jadi semoga semua hal baik yang kamu kasih ke orang lain, somehow finds its way back to you in the most unexpected and beautiful ways.

i hope you will always be surrounded by people who appreciate you juga, celebrate you, and remind you how special you are. and i hope you never feel like you have to change parts of you just because the world can sometimes be unkind. stay genuine, never stop being YOU ❤️

so proud of you and everything you've become, and i can't wait to see all the beautiful things waiting for you ahead!! love youuu alwaysss 🥺💕 happy birthday once again, cinta!!

loveee, Jane!!
